PROFESSIONAL SUMMARY

Experienced and highly motivated full-stack web developer with a passion for web development and a solid foundation in MUI, React, and JavaScript. I am actively seeking opportunities to contribute my expertise to a technology-based company, where I can demonstrate my skills and contribute to the organization's growth and success.

WORK EXPERIENCE

SOFTWARE DEVELOPMENT ENGINEER
PINCH LIFESTYLE I JUNE 2022 – JULY 2023

- Enhanced Customer Facing App for improved performance.
- Implemented Chat-bot for enhanced website engagement and support.
- Developed streamlined Bill Management System.
- Created Approval Management for electronic proof tracking.
- Designed CRM system for efficient customer-candidate matching.
- Added user-centric features to Web and Android apps.

FULL STACK WEB DEVELOPER
MASAI SCHOOL I APRIL 2021 - APRIL 2022

- Led a 6-member Frontend Masters team in MERN stack development for a collaborative e-commerce site, focusing on product description and footer design.
- Contributed to a 5-member Uniqlo website team, designing sign-in/sign-up, landing page, header/footer, and product description using HTML, CSS, JavaScript, and local storage.
- Developed a strong foundation in data structures, algorithms, and problem-solving techniques.

PROJECT

PINCHFIT | MEAL PLAN WEB APPLICATION

- Implemented a authentication system using Firebase, integrating Google authentication..
- Developed a user-friendly requirement form for users to input and customize their needs.
- Introduced a meal calendar feature, allowing users to visualize and edit their meal plans for breakfast, lunch, and dinner.
- Enabled users to add multiple family members, each with personalized meal requirements.

TECH STACK - HTML | CSS | JavaScript | Material UI | React.js | Redux | Firebase

FRONTEND MASTERS | WEB APPLICATION

- Created a robust authentication system. •
- Seamlessly integrated it with the frontend.
- Design the home page and pricing page.

TECH STACK - HTML | CSS | JavaScript | Firebase | React.js
